

**MUNICIPAL RESERVE
REHABILITATION PROJECTS
(2023-2024)**

Summer Village of Nakamun Park

May 18, 2024 Presentation

WHAT'S GOING ON WITH THE MR LOTS?

- **Competing Interests and Requirements:**
 - Clean-Up of Overgrown Properties
 - Community Safety and FireSmart Focus
 - Trend Toward Multi-Use Functionality of Municipal Lands
- **In 2023 Council Recognized These Competing Priorities**
 - Decision to Focus on Reserve Rehabilitation in 2023/2024
 - Develop a Mooring Strategy and Lot Conceptual Designs

FOCUS OF MR REHABILITATION PROJECT:

- **A) Focus on MR 3, 8 & 9**

- Others have recently had extensive work done (2018)
- These select lots are increasingly “multi-purpose” in nature

- **B) Remove Overgrowth and Underbrush**

- Reduce Fuel Load but preserve the Spruce Trees
- Maximize Open Space for Community Use
- Reset the Maintenance Clock

- **C) Replace the Fence**

- Security and Limited Access.
- Perhaps introduce a walking trail concept

- **D) Landscape and Vegetation Replacement**

- Maximize Space and Make Maintenance Manageable
- Reintroduce FireSmart Approved Trees and Shrubs
- Reseed space to grass, perhaps add hardscape.

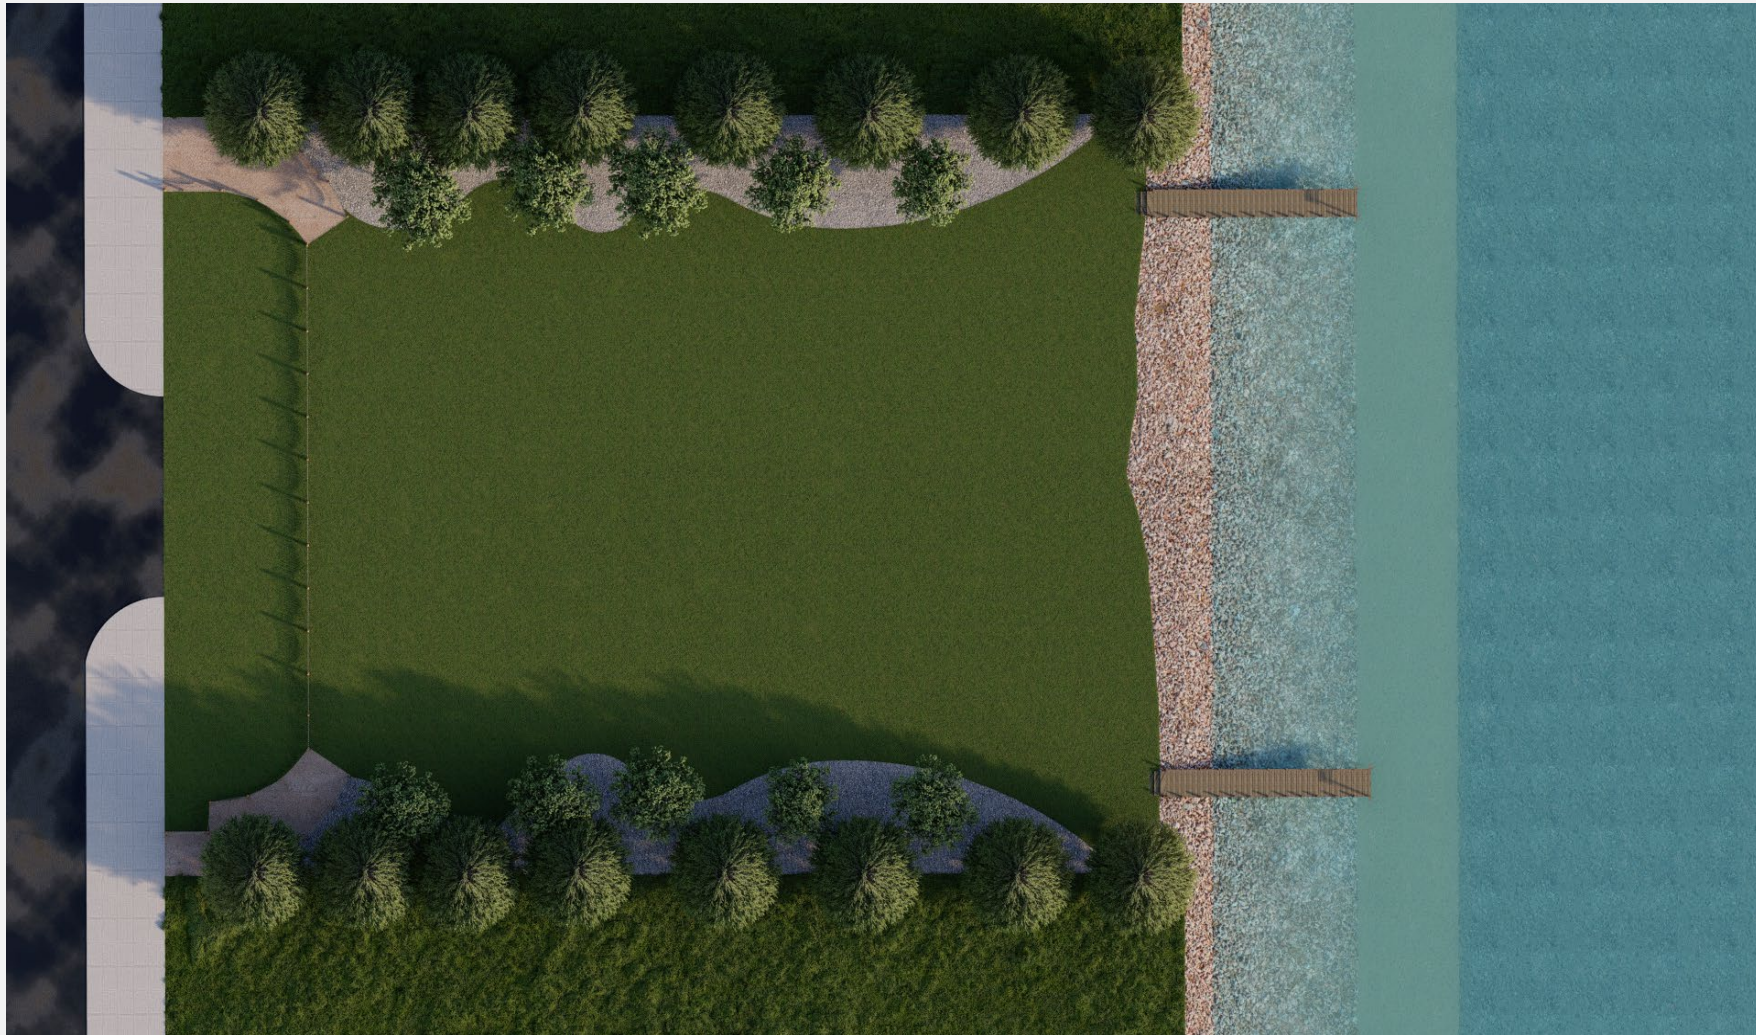

- **E) Shoreline and Mooring Rehabilitation**

- Subject to Permit Approval*
- Grade Northern section of the lots down to shoreline
- Make as much “usable” shoreline as possible,
- Install riprap to preserve for the future
- Install demarcation plaques/signs for each approved mooring site

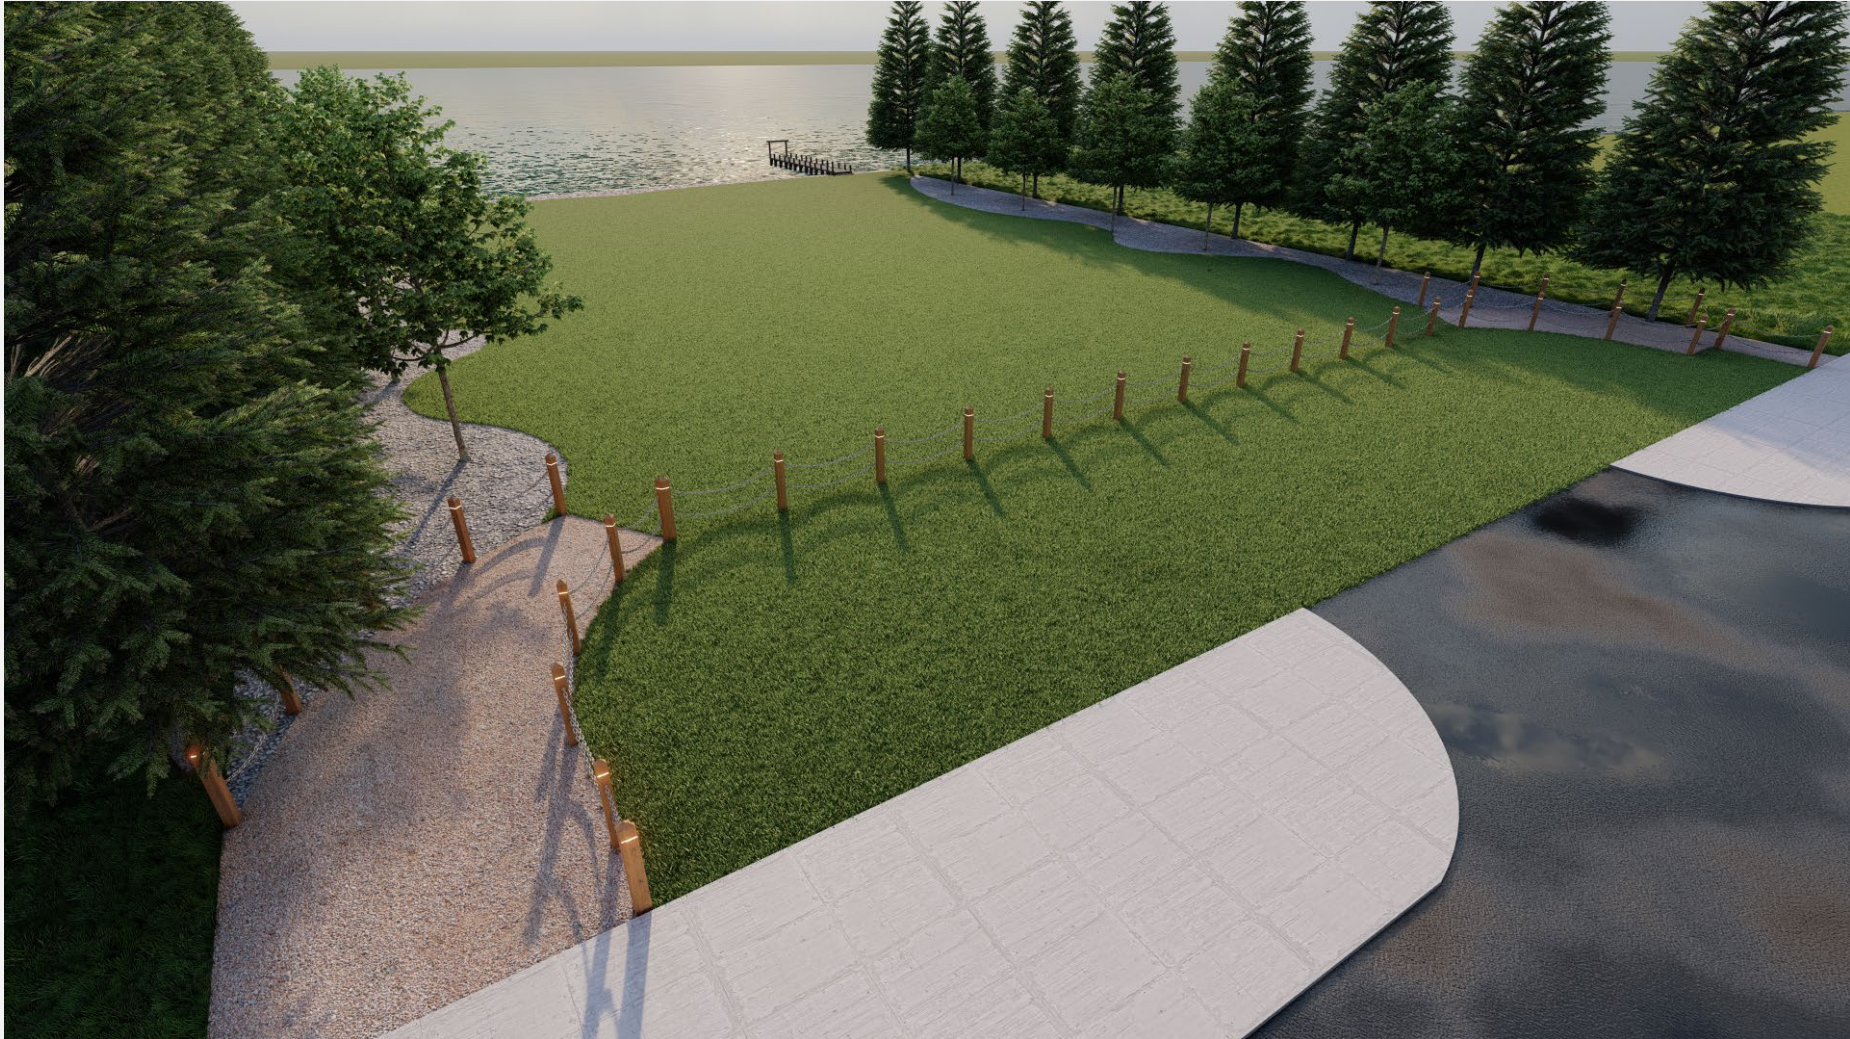

WHAT WILL IT LOOK LIKE?

- **Conceptual Drawings Completed in 2024**
 - A Vision to Reference in Discussions
- **Not “Perfect” but a Picture is Worth a Thousand Words**
 - Offered to Help Facilitate Discussion
 - Will Go on Website and Receive Comments/Suggestions
- **.... Rumour is They are for Parking Space?**
 - Although Originally Considered an Option, Council is Not In Favour of This
 - Will Locate the New Fence With Room for Overflow Snow Storage in The Winter
